

# Moles make a home

1. Try and draw your own picture of the mole.  
Why has it got such big front paws?

2. Can you think of two reasons why moles live underground?

3. Can you draw a picture of your own mole's home beneath a tree? How many moles live in your tunnels?

A large, empty rectangular box with a black border, intended for drawing a picture of a mole's home beneath a tree.
